TESTED WORKSTATION HARDWARE

The configurations listed below are those that Foundry has tested with Katana. Due to the constantly changing nature and wide variety of computer hardware available in the market, Foundry is unable to officially certify hardware. The list below can be used as a recommendation and does not guarantee that it meets your particular needs.

- NVIDIA Quadro RTX 4000
- NVIDIA Quadro RTX A4000
- NVIDIA Quadro RTX A3000
- NVIDIA Quadro P4000

Please download and install the latest graphics driver from the NVIDIA website.
